NEUROPEPTIDES

Neuropeptides (1991) **19**, 293-296
© Longman Group UK Ltd 1991

Subject Index to Volume 19

A

Adenohypophysis of the rat, in vivo and in vitro evidence of growth hormone-releasing factor produced locally in, 223
Adenylate cyclase response and calcitonin gene-related peptide receptors in the murine macrophage cell line P388 D1, 43
Adrenal gland
  acute action of polypeptide YY on rat adrenocortical cells: in vivo versus in vitro effects, 73
  differential release of enkephalin-like peptides from bovine adrenal chromaffin cells, 237
  nicotine-induced alterations in concentrations of native and cryptic met- and leu-enkephalin in adrenal medulla, 35
Adrenocorticotropin (ACTH)
  analogue ORG 2766 facilitates denervation supersensitivity after a unilateral 6-OHDA lesion of the corpus striatum in rats, 271
  in cerebrospinal fluid of patients with Alzheimer's and Parkinson's diseases, 97
Airway *see* Bronchoconstriction
Aldosterone secretion by rat zona glomerulosa, acute effects of polypeptide YY on, 73
Alzheimer's disease, correlation study of cerebrospinal fluid neuropeptides in Parkinson's disease and, 97
Aminopeptidase *see* Leucyl aminopeptidase
Amnesia, electroconvulsive shock-induced, effects in rats of atrial natriuretic peptide on, 103
Analgesia, opiate form of footshock-induced, dopamine receptor antagonists block the effect of Tyr-MIF-1 on, 281
Arginine-8-vasopressin, central effects in conscious rats of antiserum against human atrial natriuretic peptide on plasma levels of, 183
Atrial natriuretic peptide
  effects on electroconvulsive shock-induced amnesia in rats of, 103
  human antiserum against: central effects on water and electrolyte metabolism and plasma arginine-8-vasopressin level in conscious rats, 183

B

Behaviour(al)
  effects of activation of midbrain dopamine pathways by receptor selective neurokinin agonists, 119
  effects of intraperitoneally administered phencyclidine, 77 and octadecaneuropeptide-like immunoreactivity in brain of long-term isolated male Wistar rats, 179
  selective attenuation of cocaine-induced sniffing by oxytocin through basal forebrain target sites, 51
Benzodiazepine(s)
  central and peripheral type ligands: effects on [^{3}H][3-Me-His^2]thyrotropin-releasing hormone binding in brain and anterior pituitary and on response of TRH in the duodenum of the rat, 147
  GABA-benzodiazepine receptor complex: and octadecaneuropeptide-like immunoreactivity in brain of long-term isolated male Wistar rats, 179
Bombesin-like neuropeptides, mammalian, structure-activity relationships in the contraction of rat uterus of, 243
Brain
  dopamine metabolism and cholecystokinin in, effects of intraperitoneally administered phencyclidine on, 77
  effects of benzodiazepine ligands on [^{3}H][3-Me-His^2]TRH binding in, 147
  leucyl aminopeptidase from human cerebral cortex: isolation characterization and specificity against some neuropeptides, 163
  octadecaneuropeptide-like immunoreactivity in hippocampus cortex and cerebellum of long-term isolated male Wistar rats, 179
  regional distribution of neuropeptides in, 287
  somatostatin-28 interacts with cholecystokinin receptor in cortical membranes, 65
  see also individual regions
Bronchoconstriction
  effects of novel receptor-selective peptidase-resistant neurokinin agonists on, 127
  effects of tachykinins in small human airways, 157

C

Calcitonin gene-related peptide
  binding sites in selected areas of the cat central nervous system, stress-related changes in, 57
  capsaicin-induced release from muscle and mucosa of rat gastric corpus of, 137
  receptors for, and adenylate cyclase response in the murine macrophage cell line P388 D1, 43
Calcium mobilization and endothelin binding in C6-BU-1 rat glioma and N18TG2 mouse neuroblastoma cells, comparison of, 197
Capsaicin-induced release of neurokinin-A and calcitonin gene-related peptide from muscle and mucosa of rat gastric corpus, 137

Central nervous system
area-specific changes in calcitonin gene-related peptide binding sites in cats following sleep-deprivation, 57
see also Brain; Cerebrospinal fluid
Cerebrospinal fluid neuropeptides in Alzheimer's and Parkinson's diseases, correlation study of, 97
Cholecystokinin
cortical neurons containing, effects of intraperitoneally administered phencyclidine on, 77
receptor in brain and pancreas, interaction of somatostatin-28 with, 65
regional distribution in the rat brain and pituitary of, 287
Cocaine-induced stereotyped behaviour, selective attenuation by oxytocin through basal forebrain target sites of, 51
Corticotropin-releasing factor
in cerebrospinal fluid of patients with Alzheimer's and Parkinson's diseases 97
interaction of CRF and alpha-helical CRF on rat neurointermediate lobes, 213
Cyclo(His-Pro), dietary proteins as precursors of, 17

D

Denervation supersensitivity after a unilateral 6-OHDA lesion of the corpus striatum in rats, effect of adrenocorticotropin analogue ORG 2766 on, 271
Diencephalon of the cat, somatostatin-28(1-12)-like immunoreactivity in, 107
Dietary proteins: as cyclo(His-Pro) precursors, 17
D-myo-inositol-1.2.6-triphosphate (PP56), blockade of neuropeptide Y-induced potentiation of noradrenaline-evoked vasoconstriction in rabbit femoral arteries by, 13
Dopamine
adrenocorticotropin analogue ORG 2766 facilitates denervation supersensitivity after a unilateral 6-OHDA lesion of the rat corpus striatum, 271
metabolism, effects of intraperitoneal administration of phencyclidine on, 77
midbrain pathways, behavioural and biochemical responses following activation by receptor-selective neurokinin agonists of, 119
receptor antagonists block the effect of Tyr-MIF-1 on the opiate form of footshock-induced analgesia, 281
and regulation of thyrotropin-releasing hormone in the striatum and nucleus accumbens of the rat, 189
Duodenum, antagonistic effect of benzodiazepine ligands on response of thyrotropin-releasing hormone in, 147

E

Electroconvulsive shock-induced amnesia in rats, effects of atrial natriuretic peptide on, 103
Electrolytes, central effects in conscious rats of antiserum against human atrial natriuretic peptide on, 183
β-Endorphin
in cerebrospinal fluid of patients with Alzheimer's and Parkinson's diseases, 97
and interaction of corticotropin-releasing factor and alpha-helical CRF on rat neurointermediate lobes, 213
Endothelin binding and calcium mobilization in C6-BU-1 rat glioma and N18TG2 mouse neuroblastoma cells, comparison of, 197
Enkephalin(s)
action of human brain leucyl aminopeptidase on leu-enkephalin, 163
-like peptides, differential secretion from bovine adrenal chromaffin cells of, 237
nicotine-induced alterations in peripheral tissue concentrations of native and cryptic met- and leu-enkephalin, 35
regional distribution in the rat brain and pituitary of, 287
Enkephalinase (EC 3.4.24.11), immunoautoradiographic localization in rat gastrointestinal tract of, 169
Epilepsy: vigabatrin pre-treatment prevents hilar somatostatin cell loss and the development of interictal spiking activity following sustained perforant pathway stimulation, 205

F

Feeding, stimulation in rats by interleukin-1 beta 193-195 analogue Lys_{3}-D-Pro-Thr of, 9

G

Gastrin-releasing peptide, structure-activity relationships in the contraction of rat uterus of neuromedin B and, 243
Gastrointestinal tract
comparison of the presence and actions of substance P and neurokinin-A in guinea-pig taenia coli, 23
immunoautoradographic localization of enkephalinase (EC 3.4.24.11) in the rat, 169
see also Stomach
Glioma cells, C6-BU-1 rat, comparison of endothelin binding and calcium mobilization in N18TG2 mouse neuroblastoma cells and, 197
Growth hormone-releasing factor produced locally in the adenohypophyseal cells of the rat, in vivo and in vitro evidence of, 223

H

Hilar somatostatin cell loss and the development of interictal spiking activity following sustained perforant pathway stimulation, prevention by vigabatrin pre-treatment of, 205
Hypothalamus, pre-optic-anterior, prolactin release in the conscious male rat is caused by activation of mu opioid receptors in, 231

I

Interleukin-1 beta 193-195 analogue Lys-D-Pro-Thr stimulates feeding in rats, 9

L

Learning, passive avoidance, effects of atrial natriuretic peptide on electroconvulsive shock-induced amnesia in rats following, 103
Leucyl aminopeptidase from human cerebral cortex: isolation characterization and specificity against some neuropeptides, 163
Leu-enkephalin *see* Enkephalin(s)
Lys-D-Pro-Thr (interleukin-1 beta 193-195 analogue) stimulates feeding in rats, 9

M

Macrophages: characterization of calcitonin gene-related peptide receptors and adenylate cyclase response in the murine cell line P388 D1, 43
Mesolimbic dopamine pathway, behavioural and biochemical responses following activation by receptor-selective neurokinin agonists of, 199
Met-enkephalin *see* Enkephalin(s)
Muscle
  comparison of the presence and actions of substance P and neurokinin-A in guinea-pig taenia coli, 23
  of rat gastric corpus, capsaicin-induced release of neurokinin-A and calcitonin gene-related peptide from, 137
  of rat uterus, structure-activity relationships of mammalian bombesin-like neuropeptides in the contraction of, 243

N

Neuroblastoma cells, N18TG2 mouse, comparison of endothelin binding and calcium mobilization in C6-BU-1 rat glioma cells and, 197
Neurokinin(s)
  capsaicin-induced release of neurokinin-A from muscle and mucosa of rat gastric corpus, 137
  effect of neurokinin-A in small human airways, 157
  in guinea-pig taenia coli: comparison of the presence and actions of substance P and neurokinin-A, 23
  receptors: and influence of the replacement of amino acid by its D-enantiomer in the sequence of substance P, 251, 259
  receptor-selective agonists, behavioural and biochemical responses following activation of midbrain dopamine pathways by, 119
  receptor-selective peptidase-resistant agonists at NK-1 and NK-2 receptors: new tools for investigating neurokinin function, 127
  selective agonists of NK-2 binding sites are highly active in the rat portal vein bioassay, 91
Neuromedin B, structure-activity relationships in the contraction of rat uterus of gastrin-releasing peptide and, 243
Neuropeptide Y-induced potentiation of noradrenaline-evoked vasoconstriction of rabbit femoral arteries, blockade by D-myo-inositol-1.2.6.-trisphosphate of, 13
Neutral endopeptidase: and effect of tachykinins in small human airways, 157
Nicotine-induced alterations in peripheral tissue concentrations of native and cryptic met- and leu-enkephalin, 35
Nigrò-striatal dopamine pathway, behavioural and biochemical responses following activation by receptor-selective neurokinin agonists of, 119
Noradrenaline-evoked vasoconstriction of rabbit femoral arteries, blockade by D-myo-inositol-1.2.6-trisphosphate of neuropeptide Y-induced potentiation of, 13
Nucleus accumbens
  role of dopamine in regulation of thyrotropin-releasing hormone in the rat, 189
  selective attenuation of cocaine-induced stereotyped behaviour by oxytocin through target sites in, 51

O

Octadecaneuropeptide-like immunoreactivity in hippocampus cortex and cerebellum of long-term isolated male Wistar rats, 179
Olfactory tubercle, selective attenuation of cocaine-induced stereotyped behaviour by oxytocin through target sites in, 51
Opioids: activation of mu opioid receptors in the pre-optic-anterior hypothalamus releases prolactin in the conscious male rat, 231
ORG 2766 (adrenocorticotropin analogue) facilitates denervation supersensitivity after a unilateral 6-OHDA lesion of the corpus striatum in rats, 271
Oxytocin, selective attenuation through basal forebrain target sites of cocaine-induced stereotyped behaviour by, 51

P

Pancreas, somatostatin-28 interacts with cholecystokinin receptor in, 65
Parkinson's disease, correlation study of cerebrospinal fluid neuropeptides in Alzheimer's disease and, 97
Phencyclidine, behavioural and neurochemical effects on the central nervous system of intraperitoneal administration of, 77
Pineal gland, chicken, molecular characterization and peptide specificity of two vasoactive intestinal peptide binding sites in, 1
Pituitary gland
  adenohypophysis of the rat, in vivo and in vitro evidence of growth hormone-releasing factor produced locally in, 223
  anterior effects of benzodiazepine ligands on [^{3}H][3-Me-His^2]thyrotropin-releasing hormone binding in, 147
  anterior, nicotine-induced alterations in concentrations of leu-enkephalin in, 35
  interaction of corticotropin-releasing factor and alpha-helical CRF on rat neurointermediate lobes, 213
  regional distribution of neuropeptides in, 287
Polypeptide YY, acute action on rat adrenocortical cells of, 73
PP56 *see* D-myo-inositol-1.2.6-triphosphate
Prolactin release in the conscious male rat caused by activation of mu opioid receptors in the pre-optic-anterior hypothalamus, 231
Proteins, dietary: as cyclo(his-Pro) precursors, 17

R

Rat portal vein bioassay, selective agonists of NK-2 binding sites are highly active on, 91

S

Skin, plasma protein extravasation in, actions in rat of novel receptor-selective peptidase-resistant neurokinin agonists on, 127
Sleep-deprivation-related changes in calcitonin gene-related peptide binding sites in the cat central nervous system, 57
Somatostatin
  in cerebrospinal fluid of patients with Alzheimer's and Parkinson's diseases 97

in neurons of the hilus of the dentate gyrus, vigabatrin pre-treatment prevents loss of, 205
regional distribution in the rat brain and pituitary of, 287
somatostatin-28 in the cat diencephalon, 107
somatostatin-28 interacts with cholecystokinin receptor in brain and pancreas, 65
Spleen, nicotine-induced alterations in concentrations of native and cryptic met- and leu-enkephalin in, 35
Stomach
capsaicin-induced release of neurokinin-A and calcitonin gene-related peptide from muscle and mucosa of rat gastric corpus, 137
immunoautoradiographic localization of enkephalinase (EC 3.4.24.11) in the rat, 169
Stress: changes in calcitonin gene-related peptide binding sites in selective areas of cat central nervous system following sleep-deprivation, 57
Striatum
adrenocorticotropin analogue ORG 2766 facilitates denervation supersensitivity after a unilateral 6-OHDA lesion of, 271
nigro-striatal dopamine pathway, behavioural and biochemical responses following activation by receptor-selective neurokinin agonists of, 119
role of dopamine in regulation of thyrotropin-releasing hormone in the rat, 189
Substance P
effect in small human airways of, 157
in guinea-pig taenia coli, comparison of the presence and actions of neurokinin-A and, 23
influence of the replacement of amino acid by its D-enantiomer in the sequence of, 251, 259
regional distribution in the rat brain and pituitary of, 287

T

Taenia coli of guinea-pig, comparison of the presence and actions of substance P and neurokinin-A in, 23
Thyrotropin-releasing hormone (TRH)
effects of central and peripheral type benzodiazepine ligands on [^{3}H][3-Me-His^2]TRH binding in brain and anterior pituitary and on response of TRH in duodenum of the rat, 147
regional distribution in the rat brain and pituitary of, 287
in striatum and nucleus accumbens of the rat, role of dopamine in regulation of, 189
Tyr-MIF-1: effect on the opiate form of footshock-induced analgesia is blocked by dopamine receptor antagonists, 281

U

Uterus, rat, structure-activity relationships of mammalian bombesin-like neuropeptides in contraction of, 243

V

Vasoactive intestinal peptide (VIP)
in cerebrospinal fluid of patients with Alzheimer's and Parkinson's diseases, 97
molecular characterization and peptide specificity of two VIP binding sites in the chicken pineal, 1
Vasoconstriction
noradrenaline-evoked in rabbit femoral arteries, blockage by D-myo-inositol-1.2.6-trisphosphate of neuropeptide Y-induced potentiation of, 13
selective agonists of NK-2 binding sites ae highly active in the rat portal vein bioassay, 91
Vigabatrin pre-treatment prevents hilar somatostatin cell loss and the development of interictal spiking activity following sustained perforant pathway stimulation, 205

W

Water and electrolyte metabolism, central effects in conscious rats of antiserum against human atrial natriuretic peptide on, 183

Z

Zona glomerulosa, acute action in the rat of polypeptide YY on, 73
